Salt

Salt Of The Earth

Granular salt is a compacted salt product with granules between 2 and 6mm. It has been specifically developed for regeneration of domestic, commercial and industrial water softeners. It can also be used in dishwashers.

Combi Cubes®

Our exclusive Combi Cubes® brand has been designed by us for you to give the best quality at the right price. This natural granular salt for water softening is a high-purity solution designed to efficiently reduce hardness in water. Its coarse granules dissolve evenly in water softening systems, helping to prevent limescale buildup in pipes and appliances. Free from additives, this salt ensures long-lasting protection and improved water quality for homes and businesses.

Beerline Cleaner

Keep Those Pipes Clean

Effortless Cleaning Power: Our beer line cleaner is designed to tackle stubborn residues and impurities that can affect the quality and taste of your beer. Safe for use in all draught systems, it helps prevent off-flavors, maintains system efficiency, and extends the life of your equipment.

We can supply the branded Pipeline, original and professional for those wanting the assurance of a household name. Or we can supply the more economical unbranded version.

Both are available as a purple cleaning option. When the cleaner is purple, the line is clean and free of organic contamination. If the cleaner turns a different color, such as green, blue, or yellow, the line is dirty.

Key Benefits:

Thorough Residue Removal: Effectively dissolves and removes buildup, residues, and contaminants from beer lines, taps, and fittings.

Improves Taste: Ensures your beer tastes just as the brewer intended by eliminating any impurities that can affect flavor.

Easy to Use: Simple and efficient application—just mix with water, run through your system, and rinse for a sparkling clean.

Safe for Equipment: Gentle on your draught system while tough on residue, helping to maintain system performance and longevity.

Effective down to -20°C its powerful formula cuts through dirt, grime, and ice, providing a streak-free finish and protecting your washer system from freezing. During summer months, simply dilute the formula to a 1 in 10 mixture. Drive safely and confidently this winter with Sparkleit's reliable performance, ensuring optimal visibility in rain, snow, and frost.

Our 1 Litre Trigger Range

Trigger Happy

We have a wide range of products available in our non aerosol, 1 Litre trigger range and our less heavy 750ml trigger

As with all our chemicals they are manufactured in the UK to our very high specification so you're getting big brand quality at discount prices.

We can supply 5 Litre refill tubs for any of the products so you can reduce packaging and save even more money.

All our chemicals, including these can be ordered with your own label and we can even design that label for you. All of our chemicals are labelled in our own factory so we can offer this service even on a small run of items.

We make it easy for you to promote and grow your own cleaning supplies company. We can even supply this brochure tailored to your branding.

Metal Scourers

Three Different Types

Stainless Steel Scourers: Durable and rust-resistant, our stainless steel scourers are perfect for heavy-duty cleaning tasks. They effectively remove tough stains and burnt-on food from pots, pans, and surfaces, making them ideal for kitchens and restaurants.

Galvanized Scourers: Designed for versatility, our galvanized scourers offer a balance of strength and flexibility. These scourers are excellent for cleaning metal surfaces, grills, and outdoor equipment, ensuring thorough cleaning while resisting corrosion.

Copper Scourers: Soft yet effective, our copper scourers are perfect for delicate surfaces that require a gentler touch. Ideal for cleaning glassware, cookware, and polished surfaces, delivering a brilliant shine.

Square & Round Daily Dot Labels

These square or round daily dot labels are a versatile solution for efficiently organizing and tracking perishable items. Available in bright colors with clear, easy-to-read text, they help mark the day of the week or expiration dates on food containers and packaging. The adhesive backing ensures they stick securely, yet they can be removed cleanly without leaving residue. Perfect for kitchens, restaurants, and food service operations, these daily dot labels make inventory management simple and effective.

There's 1000 labels per roll and rolls can be ordered individually or in pack of a full week. We can even supply a handy dispenser for both kind of dots. You'll find it on page 76.

OWN
IDENTITY

What's The Difference?

Layers:

The 2-ply napkin has two layers, while the 3-ply napkin has three, providing the 3-ply option with greater absorbency and durability.

Fold Style:

The 2-ply napkin is folded eight times, resulting in a more compact shape, whereas the 3-ply napkin is folded four times.

Softness:

The 3-ply napkin typically feels softer due to the additional layer, enhancing comfort during use.

Use Cases:

The 2-ply 8-fold napkin is often suited for casual settings, while the 3-ply 4-fold napkin is ideal for more formal occasions due to its elegant appearance and higher absorbency.

Airlaid Napkins

The Classic

An airlaid napkin is a type of non-woven napkin made from cellulose fibers that are air-laid, meaning the fibers are spread out and bonded together without the use of water. This process creates a soft, absorbent, and sturdy napkin that mimics the feel of traditional fabric napkins.

Mopheads

Big White Eco

The Big White Eco mop heads are lightweight, super-absorbent mops made from eco-friendly, non-woven fabric strips. They feature a secure Exel push-fit fitting that ensures the mop stays firmly attached to the handle during wringing, preventing slippage. This fast-drying, sustainable alternative to traditional cotton mops is perfect for smaller areas, offering excellent value and performance. The color-coded sockets help reduce the risk of cross-contamination.

Mopheads

Kentucky Mop Heads

Kentucky mop heads are a type of mop commonly used for heavy-duty cleaning tasks, known for their durability and high absorbency. They are ideal for cleaning large surface areas, such as in commercial and industrial settings. The wide head and thick strands make it easy to cover more floor space efficiently, while the absorbent material is effective at soaking up spills and moisture. Our Kentucky heads have coloured tabs that you can remove accordingly allowing you to colour code your cleaning areas for health and safety purposes.
